How to Use Safe Exam Browser

How to Use Safe Exam Browser

General Concept

- Safe Exam Browser is a web browser environment that carries out e-assessments safely.
- The software turns any computer temporarily into a secure workstation. It controls access to resources like system functions, other websites and applications and prevents unauthorized resources from being used during an exam.

Configurations

- SEB runs on a local computer and it is connected via the internet to a learning management system (LMS)
- Safe Exam Browser enables secure exams on unmanaged computers like students' personal laptops and tablets as well as in managed environments on all three platforms Windows, macOS and iOS.

Requirements

- A laptop computer or camera-enabled desktop (**not mobile phone**)
- Windows 11 or macOS
- Any browser to access the LMS

How to Use Safe Exam Browser

Step 1:

- Open the EST website by typing, **east.university**
- Click the **LMS** button
